

TRAXON Plus⁺

Pixel Ribbon Plus Multi Bend

Project: _____
Type: _____

DMX 512

IP67

IK08

Traxon Pixel Ribbon Plus is a flexible, IP67-rated LED strip engineered as a durable outdoor alternative to neon. Designed for architectural and façade applications, the series includes Multi Bend options that easily follow curves and complex structures. With individually controllable pixels, a 4 in / 100 mm pixel pitch, and an open beam that delivers smooth, uniform illumination, Pixel Ribbon Plus is ideal for high-impact, full-color lighting displays. The range is available in multiple colors and CCTs, offers a variety of mounting solutions, and can be specified in custom lengths to suit diverse project requirements.

Features

- IP67 Rating: Suitable for outdoor use, protected against dust and water.
- DMX512 Control.
- Diffused material ensures seamless illumination.
- Pixel Pitch: 4" / 100mm pixel pitch, allowing for precise pixel control.

Dimensions

Bottom cable feed (BF)
Unit: mm [inches]

Product Specifications

LED Color	RGBW (W: 6500K)	RGB	DW (W: 2700K+5700K)	W 4000K	W 3000K	W2700K
Light Source	High intensity SMT RGBW 4 in 1 LEDs			White LEDs		
Color Range	16.7 Million additive RGB colors			N / A		
Pixels	3 pixels/ft					
LED pitch	RGBW, RGB, DW: 14.2mm [0.56"] W4000K, W3000K, W2700K: 14.2mm [0.56"]					
Pixel Pitch	4" / 100mm					
Cutting Pitch	4" / 100mm					
CRI for White LED	> 80					
SDCM for White LED	White Color uniformity: 3 SDCM					
Luminous Flux	136 lm/ft	79 lm/ft	199 lm/ft	212 lm/ft	198 lm/ft	192 lm/ft
Efficacy	31.0 lm/W	22.5 lm/W	68.1 lm/W	72.5 lm/W	67.6 lm/W	65.5 lm/W
Beam Angles	120°					
Housing	Diffused silicone, UV resistant					
Mounting	Various mounting channels, brackets or strips					
Dimensions (W x H)	20mm [0.79"] x 20mm [0.79"]					
Max. Length	6.1m [20'] / roll					
Weight (per roll)	1.6kg [3.53lbs]					
Minimum Bend Radius	300mm [11.81"]					
Regulatory Listing & Safety Approval	cETLus, FCC, ANSI 3G					
Operating Temperature	-20°C to +50°C / -4°F to 122°F					
Storage Temperature	-40°C to +70°C / -40°F to 158°F					
Environment	Outdoor, IP67, suitable for coastal environment, IK08					
Humidity	0 to 90% non-condensing					

Electrical Specifications

Input Voltage	24V DC					
Power Consumption (Typ)	4.4 W/ft	3.5 W/ft	2.9 W/ft	2.9 W/ft	2.9 W/ft	2.9 W/ft

System Specifications

Control	DMX512					
Power Supply	24V DC Outdoor					
Addressing Options	Manual Addressing with TX Smart Addresser					
Chipset	SM19522					

LED CHARACTERISTICS Because LEDs are semiconductor devices, their performances are subject to inherent variability commonly found in semiconductor industry. To improve consistency in performance across the same product, LED manufacturers "sort" LEDs into bins according to different preset parameters, such as forward driving voltage, illumination, etc. Whereas binning is a sorting function, it is not a correction process. Inherent variability in the manufacturing process results always in different binning distributions according to different production lots. Traxon uses automatically binned LEDs on its products, thereby minimizing output variations within the model range.

As with all electronic devices, LED output degrades over time – a term called lumen depreciation. This also explains why it is nearly impossible to expect photometric performances of two LED products with different service life spans to be the same. The rate of LED degrade is a complicate function of many factors such as operating efficiency, duration of continuous operation, and more significantly, environmental conditions (ambient temperature for example). If allowed working under optimal operating temperature range and with good ventilation, LED devices enjoy long service lives over conventional light sources. When using/installing LED devices, care should be taken to ensure that the devices will operate within the operating conditions specified in respective product literature.

This product contains a light source of energy efficiency class G to Regulation (EU) No 2019/2015.
Lumen measurement complies with LM-79-08 standard.
Lumen maintenance is calculated based on LM-80 compliant measurement.

Mounting Accessories

Unit: mm [inch]

PIXEL RIBBON MB2020 U-CHANNEL 980 (DA26103652755)
Color Finish: Silver

PIXEL RIBBON MB2020 FLEXIBLE MOUNT STRIP 1M/5M (DA26103677455/DA26103652555)
Color Finish: Stainless steel

PIXEL RIBBON MB2020 MOUNT BRACKET 20PC (DA26103652655)
Color Finish: Silver

Typical Power Injection with Wiring Y-Cable

NOTE: Mounting accessories not shown.

NOTE: Power injection is required when Pixel Ribbon Plus connection length reaches the maximum length with single power feed (20').
This wiring diagram shows only typical connections. Actual wiring depends on Ribbon configuration and installation. Actual no. varies according to cable lengths and signal source.
Please consult your local Traxon office for aid.

Typical Wiring with Starter Cable

NOTE: Mounting accessories not shown.

NOTE: Do not connect the Address cable.
This wiring diagram shows only typical connections. Actual wiring depends on Ribbon configuration and installation. Actual no. varies according to cable lengths and signal source.
Please consult your local Traxon office for aid.
